HAWAIIAN BILLS.

Many Sub-Ports May Now Be Made.

CABLE BILL WILL BE PASSED SOON

Appropriates \$12,000 to Establish an Agricultural Station in Hawaii.

(Special Correspondence.)

WASHINGTON, D. C., Jan. 18.—The interests of Hawaii are to be considered at length at an early day by the Senate Committee on Pacific Islands and Porto Rico, of which Senator Foraker is the head. It was to this committee that the land bill, extending the regulations of the Department here to the lands of the Islands was sent, and its sponsor, Senator Hansbrough, has asked for the consideration. This is only one of the effects of the presentation of the measure, for the chairman of the committee has requested Mr. Haywood to appear and make any statements proper to the committee, while the bill is under consideration. It seems more than likely that there will be more than a simple hearing upon this bill. In the committee there lies a great desire for better information on many points about the Islands, and it seems probable that the hearing will develop a score of questions which will be discussed and upon which there are questions to be asked.

The bill providing for greater powers for the United States courts is now before this committee and there will be no doubt that other measures will be sent to it before the time of the hearing.

E. M. BOYD.

BILL AFFECTS ISLANDS.

Secretary of the Treasury May Declare Sub-ports at Will.

(Special Correspondence.)

WASHINGTON, D. C., Jan. 18.—Congress yesterday passed the first bill of the session which will affect the Hawaiian Islands in its operation. This was the bill to provide for the creation of new sub-ports of entry at the discretion of the Secretary of the Treasury. The bill was introduced by Senator Frye in the Senate and was reported from the Commerce Committee, of which he is chairman, at once.

It was put on the calendar of the Upper House, and under a suspension of the rules, it was passed without objection during the first hour of the session. The bill was drawn by Attorney Haywood, and has for its object the placing of aids to the commerce at the command of the business community. Under its provisions the Secretary of the Treasury, whenever he sees fit, may declare any landing in the Islands a sub-port, for the transaction of business of the Customs Department. This will permit the designation of such places in Kauai and on windward Hawaii as he sees fit as ports.

Further than this it means that should the usefulness of a sub-port be passed there will not be any action of Congress necessary to change the location of the port, but this may be done by the Secretary directly.

Another bill was introduced in the Senate, by Senator Perkins of California, for the purpose of granting to the ports of Honolulu and Hilo the rights of immediate transportation, and has passed the upper body and is now in the hands of the House. It will be taken up by the Committee on Commerce at once and will be pushed.

AGRICULTURAL STATION.

Will be Established Here at a Cost of Nearly \$12,000.

(Special Correspondence.)

WASHINGTON, D. C., Jan. 18.—The House Committee on Agriculture will put into its forthcoming bill a provision for the establishment of an agricultural experiment station in the Territory of Hawaii, at an expense of \$12,000. This amount was agreed upon at a meeting of the committee when Delegate Wilcox presented the claims of the Territory for such recognition. The amount asked was \$15,000, but when it was seen that Alaska and Porto Rico did not get more than the sum finally fixed, there was no attempt to force the larger appropriation.

This appropriation will be available immediately, and will be expended under the directions of the Secretary of Agriculture. It is the hope of Secretary Wilson that he may send to the Islands several new things in the way of small fruits and grasses, and the station will be one for the close study of conditions in the tropics.

The Federal officials in Honolulu are ready to spread their beneficent influence over the larger Island as well as in Oahu. A bill which has been introduced by Senator Warren, colleague of Senator Clark of Wyoming, has for its object the holding of the sessions of the United States courts both at Honolulu and Hilo. The bill fixes the days for the holding of the sessions of the courts and then proposes to give to the court powers enjoyed by no other Territorial court—that of "diverse citizenship." By this clause, should the bill pass, which is not likely, it would be possible for the court to entertain suits between citizens of different States or Territories.

FOR CABLE CONNECTION.

Delegate Wilcox Enlists Aid and Bill Will Pass Soon.

(Special Correspondence.)

WASHINGTON, D. C., Jan. 18.—Once more there will be made a determined effort to have the bill for the construction of a Pacific cable placed before the House and with good prospects. Delegate Wilcox began a canvass of the members of the California delegation yesterday with hopes of enlisting their sympathy and aid. He was successful to the last degree, and at once arranged for a hearing of the combined delegations with the Speaker.

Congressman Sherman, of New York,

the father of the cable bill, however, was out of the city, and the meeting will be delayed until his return. He will act with the delegations, and as Corliss of Michigan, who has the Government ownership measure in hand, is moving for a hearing as well, there really seems to be some little chance for the setting aside of a date for the consideration of the bill.

There are enough votes ready to pass the bill should it ever get before the House, but the reluctance of the controlling spirits has thus far been the stumbling block. There is little real objection to the bill, but there has been some feeling against the expense which this measure will entail at this time. The strength of the Pacific Coast delegations will be put behind the measure, and it seems that there will be a material accretion of strength when the full force of the Westerners is in working order.

GEAR ATTACKS WILCOX.

Claims That Wilcox Was Only Separated From His Wife (Special Correspondence.)

WASHINGTON, D. C., Jan. 18.—Attorney George D. Gear does not feel that he has completed his duty to the Islands as yet. He has had interviews with Chairman Taylor of the Committee on Elections of the House, and has been assured that the day that he has his case in readiness for submission, he will be given a hearing. The delay in making the official attack upon Wilcox is thus put off, for the records upon which the attack upon his marriage is to be made, have not come to hand.

While in New York Gear procured a copy of the newspaper which told of the granting of the decree by the courts at Turin, and this he says shows that never was there anything more than a separation. There is little hope that the House will consider even such technical matter, as the intent is not impugned, but this will not stop the attack upon the official representative of the Islands.

Wants More Advice.

(Special Correspondence.)

WASHINGTON, D. C., Jan. 18.—Dr. Raymond's plan to have the Marine Hospital Service place a bacteriologist at the port of Honolulu, and thus do away with the expense of such an official to the Board of Health, is not likely to find much support here. I saw Dr. Wyman today and he said the matter had not been brought before him in any way, and the clipping from the Advertiser furnished his only information as to what is desired by the local officials, and this is meager. In a general way, he said it would not be the policy of the Government to place a bacteriologist at that port; what might be done, should there seem to be an epidemic, and the presence of such an expert be advisable, he could not discuss in advance.

IN POLICE COURT.

A Funny Trial of Portuguese Before District Judge Wilcox.

The star turn at Judge Wilcox's matinee yesterday was an assault and battery case in which the entire dramatic personae were Portuguese. Jordas Freitas and Jacinto Cordeiro were the principals.

It appeared the assault was the outcome of a quarrel which started long years ago on board a vessel sailing from Portugal to Hawaii. Since then whenever Freitas got drunk he has sought out his old shipmate and "soaked" him one for the sake of old times. Twice legal battles have been fought in the Police Court and yesterday was their third meeting in Judge Wilcox's arena. Attorneys Vivas and Correa seconded the men.

Freitas said that when he was drunk he wanted to whip Cordeiro and stated that the feeling was so strong in him at such times that he just couldn't help responding to it. Such was the situation last Sunday, he told the Judge.

Jacinto Sanares, one of the witnesses, was asked by the Judge if the men were drunk.

"Oh no," was the reply; "if they had been drunk they would have been on the ground."

"Had they had any drinks?" queried His Honor.

"Everybody drinks on Sunday," was the response.

In settling the case the Magistrate said that he had heard the defendant had offered complainant \$10 not to prosecute him, and told him that as he seemed anxious to pay \$10, he would give him a chance to do so, by imposing a fine of that amount.

Punohu went into a coffee shop on Nuuanu street and asked for a bottle of lemon soda, which he ordered him. He opened the bottle and drank most of it and then told the proprietor it was no good and asked him to exchange it for root beer. The owner of the "pop" refused and defendant threw the bottle at the chandler, completely wrecking it. He was committed for trial.

Kawachi, charged with cruelty to animals, was fined \$5 and costs and Erickson the day's lone drunk, paid the usual tax.

The following cases were continued: J. Pailhale, unlawfully on premises, February 25th; F. D. Haskell, gambling, January 21st; Alfred Tapia, assault and battery on Keakaku, February 2.

Death of a Hero.

NEW YORK, Jan. 24.—After suffering for more than two years with Cuban fever, Alfred Rosetzky, who is said to have been the first American soldier to ford San Juan creek, where the fiercest of the Spanish fire was directed in the battle of San Juan Hill, has just died in a Newark hospital. He contracted the fever in Santiago, and was a mere skeleton when he got home.

At San Juan, Rosetzky fought in Troop C, Sixth Cavalry. His clothes were cut by bullets, and while he was ascending the hill with a number of other soldiers, a shell exploded close by them. A lump of earth struck the young soldier in the side, knocking him senseless. After the battle he was personally complimented for his courage by General Wheeler.

Empress Frederick Better.

HOMBURG, Jan. 24.—The condition of the Dowager Empress Frederick continues satisfactory. Lately she has not suffered any pain, but this does not imply improvement. However, Her Majesty's sorrow and personal loss owing to the death of the Queen has been borne with comparative fortitude.

Krueger Operated On.

UTRECHT, Jan. 24.—An operation was performed on Mr. Krueger's eyes this morning by Professors Nellen and Threumans. The operation was perfectly successful.

Two men, John Wiser and John Marsh of Niagara Falls, New York, were attempting to cross the river just above the falls, when they lost control of their boat and were carried into the rapids. Wiser was unable to swim and was carried over the falls and drowned. His companion was rescued by several men just in time to avert a similar fate.
